

# Mr. Fred Felder

Founder & Chief Executive Officer, 342 Saluda Inc.

Fred Felder is a seasoned industry leader with over six decades of expertise in professional contracting, infrastructure development, and renewable energy innovation. As the Founder and CEO of 342 Saluda Inc., he has directed the successful execution of multi-million-dollar construction and sustainability projects, establishing himself as a visionary in shaping modern infrastructure across public and private sectors.

A U.S. military veteran and proud South Carolina native, Mr. Felder combines strategic acumen with operational excellence to deliver transformative projects. Under his leadership, 342 Saluda Inc. has become synonymous with large-scale infrastructure advancements, including transportation hubs, educational campuses, healthcare facilities, and renewable energy systems. The firm's core competencies—construction management, cost estimation, and precision scheduling—ensure projects adhere to rigorous standards of efficiency, sustainability, and architectural ingenuity.

## Highlights:

- **School of the Future (Philadelphia, PA):** A revolutionary educational complex developed in collaboration with the School District of Pennsylvania, integrating smart technologies and sustainable design.
- **Perelman Center for Advanced Medicine (Philadelphia, PA):** A premier healthcare institution advancing cutting-edge medical research and patient-centric care through innovative infrastructure.
- **National Airport Modernization Initiatives:** Spearheaded critical upgrades to major U.S. airports, optimizing operational capacity and passenger experience.
- **Renewable Energy & Green Infrastructure Programs:** Pioneered solar, wind, and LEED-certified building projects, driving decarbonization and energy efficiency in commercial and public developments.
- **High-Impact Renovations:** Delivered numerous multi-million-dollar renovations emphasizing sustainable materials, operational resilience, and forward-thinking design.

Recognized as an industry authority, Mr. Felder's career is defined by his ability to manage complex, high-stakes projects while fostering sustainable progress. His strategic vision for 342 Saluda Inc. continues to elevate benchmarks for quality and innovation, cementing his legacy as a trailblazer in construction, infrastructure, and renewable energy.
